

Doosan Lentjes is a German provider of proprietary environmental technologies for thermal waste treatment and power generation. Our areas of expertise include the incineration of renewable fuels such as waste, sewage sludge and biomass, heat recovery systems and flue gas cleaning equipment. However, our most important resource is our employees, which is why we offer them exciting projects and the opportunity to develop and take on responsibility – every day. ***As soon as possible we are looking for:***

Technical Project Manager Boiler (m/f/d) — Ratingen (Headquarters)

Your Tasks

- Leading and controlling the boiler management team
- Evaluate order documents and create a schedule for drawings
- Preparation of specifications for boiler components and purchased parts, starting inquiries, evaluating offers, conducting award negotiations with suppliers, support through to delivery or assembly
- Supervision of internal and external basic & detail engineering
- Independent concept development of problem solutions for pressure parts of a waste-to-energy plant or a circulating fluidised bed boiler
- Interface coordinator between the departments
- Preparatory work for the approval documents as well as support for the project engineering and production
- Optimization of the processes and components to be processed in the context of R&D, as well as order processing in coordination with the department
- Participation in project meetings, design reviews, etc.

Your Profile

- Completed training as a technical draftsman or technical degree with several years of professional experience in boiler construction or comparable training
- Relevant professional experience in the field of boiler construction
- Good knowledge of the CAD programs AUTOCAD and INVENTOR
- Good written and spoken German and English language skills.
- Willingness to undertake occasional national and international trips
- Distinct spatial imagination
- High creative willingness to solve difficult constructive problems
- Ability to safely control scheduling processes

Our Offer

- Flexible and family-friendly working hours with a lived home-office culture
- Flat hierarchies and short decision-making paths
- Varied projects with a high degree of personal responsibility and creative freedom
- Modern company building with inviting lounge areas
- Canteen directly on site with daily changing regional lunch offers
- Company parking spaces on site
- Health-promoting measures, e.g. possibility to obtain a company bicycle

Does that sound exciting to you and do you find yourself in this position? Then become part of the Doosan family! We are looking forward to receiving your complete application documents. Please send them to **Linda Diel** at **DL.Human.Resources@doosan.com**, stating your salary expectations.
