

Doosan Lentjes is a German provider of proprietary environmental technologies for thermal waste treatment and energy generation. Our areas of expertise include the incineration of renewable fuels such as waste, sewage sludge and biomass, heat recovery systems and flue gas cleaning equipment. However, our most important resource is our employees, which is why we offer them exciting projects and the opportunity to develop and take on responsibility – every day. ***As soon as possible we are looking for:***

In-house lawyer (m/f/d) – Ratingen (Headquarters)

Your Tasks

- Handling all legal matters affecting the company in constant consultation with the Head of Legal and the divisions and departments concerned
- Supervision of corporate law matters
- Legal advice on the drafting, review and negotiation of contracts with customers and suppliers for projects in international large-scale plant construction
- Processing and preparation of legal opinions on legal issues arising in connection with the execution of projects and other legal issues resulting from the company's business activities
- Legal advice on the assessment and handling of asset and liability claims and all other legal issues arising in connection with the execution of projects
- Conducting and supervising all out-of-court and in-court legal disputes concerning the company, in particular examining the prospects of success, coordinating the procurement of information and documents, and managing the legal representatives commissioned with representing the company
- Examination of legal risks arising from the company's activities, in particular those associated with projects, within the framework of the respective specifications for the risk assessment of such projects.
- Advising the management and the divisions on all other legal issues arising and preparing legal opinions in this regard

Your Profile

- Law degree, 1st and 2nd state examinations, preferably with distinction
- Several years (5 years) of professional experience in a law firm specializing in commercial law or in a company, preferably in plant engineering and construction
- Excellent understanding of law and contracts, as well as several years of experience in the management of complex international contracts
- Foreign language skills: business fluent English, knowledge of another foreign language (French, Spanish) desirable
- Solid basic technical understanding and interest in legal issues arising from and in connection with technical matters
- Strong negotiation and communication skills
- High degree of independence and initiative
- Flexibility and ability to work under pressure
- High degree of responsibility and entrepreneurial thinking
- Intercultural competence

Our Offer

- Flexible and family-friendly working hours with a lived home-office culture
- Flat hierarchies and short decision-making paths
- Varied projects with a high degree of personal responsibility and creative freedom
- Modern company building with inviting lounge areas
- Canteen directly on site with daily changing regional lunch offers
- Company parking spaces on site
- Health-promoting measures, e.g. possibility to obtain a company bicycle

Does that sound exciting to you and do you find yourself in this position? Then become part of the Doosan family! We are looking forward to receiving your complete application documents. Please send them to **Linda Diel** at DL.Human.Resources@doosan.com, stating your salary expectations.
